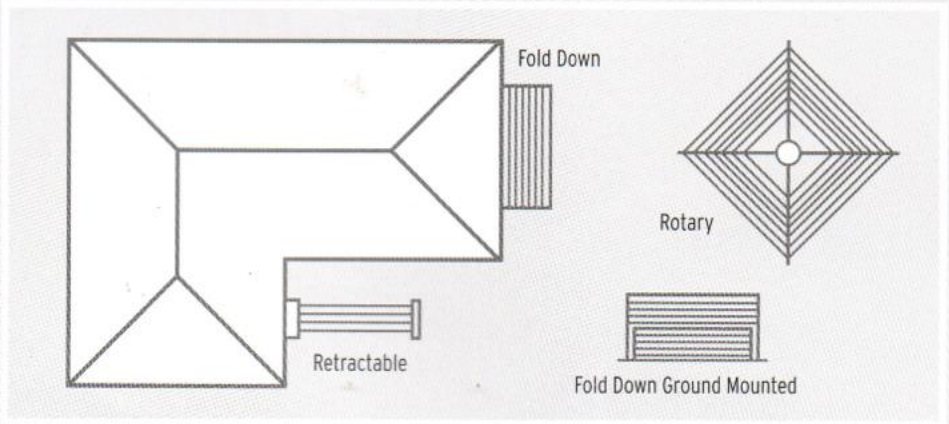
Choosing the Right **Daytek** Clothesline

Outdoor clotheslines are the most cost effective and environmentally friendly laundry drying solution.

When choosing your clothesline you need to consider the following key points:

1. **The size and volume of your washing requirements**
2. **How frequently you do the laundry**
3. **The amount of clear space you have in your back yard or around your home.**



Rotary Clotheslines have the largest overall line space but require a large backyard. If you have the space a Rotary Clothesline offers the best drying solution. The Daytek Rotary head can be folded down and the entire unit removed from the ground socket when not in use, giving you back your valuable yard space when needed.

If there is not enough room for a Rotary Clothesline then our Fold Down Clotheslines or Retractable Clotheslines offer a good sized drying space while not taking up valuable yard space.

Fold Down Clotheslines offer flexibility in a range of sizes and fold away when not in use.

- Single and Twin models are an excellent medium space option offering 24 metres of line space. They can be mounted either on a wall or using the Daytek Ground Mount Kit.
- Slim and Mini models use minimal room and at only 645mm deep in the up position are ideal in narrow spaces.

Retractable Clotheslines are a perfect solution when you need a family sized drying space, but yard space is at a premium. They are the least obtrusive of all clothesline models with lines that extend out effortlessly when required and retract away out of sight when not in use. Easy to operate, the line locking mechanism tensions and securely locks all lines with less than a single turn of the handle.

Daytek Colours

Daytek Rotary and Fold Down clotheslines are available in a standard range of colours and sizes, however if you have something different in mind, Daytek can customise your clothesline to suit your specific needs.

Daytek has spent time and effort to ensure that our standard range of colours matches or compliments the most popular COLORBOND® steel colours used in Australia.

Custom options include an additional range of colours and dimensions suited to your requirement. Contact the Special Orders desk at your local Bunnings warehouse for details.

COLORBOND® is a registered trade mark of BlueScope Steel Limited.

Standard Colours

Fold Down Clothesline Range
standard colour options are
Light Grey and Anthracite Black.

Rotary Clothesline Range
standard colour options are
Anthracite Black and Hawthorn Green.

Light Grey	Anthracite Black	Hawthorn Green

Warranty

Many products offered by Daytek Australia Pty. Ltd. come with Warranties in addition to the standard protections offered to our customers under law.

The products that have these additional Warranties; of either 25 years, 15 years, 5 years or 2 years; have such warranties noted on the packaging, and on our website.

An example of a 25 year Warranty to be found on our packaging is here:

25 Year Product Warranty

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be acceptable quality and the failure does not amount to a major failure.

If any part of this clothesline fails to operate correctly due to faulty workmanship or defective material Daytek Australia will repair or replace free of cost within 25 years from the date of purchase. (Receipt of purchase required). The PVC line is covered by a 2 year warranty from the date of purchase. Any evidence of misuse or incorrect adjustment will void the warranty. To claim a product warranty, please contact Daytek Australia directly. You must bear the cost of claiming the warranty. This warranty is in addition to other rights and remedies of the customer under law.

Daytek. Retractable Clotheslines

Retracting Clotheslines are a perfect solution when you need a family sized drying space but yard space is at a premium. They are the least obtrusive of all clothesline models with lines that extend out effortlessly when required and retract away out of sight when not in use.

Retractable Clotheslines

The 4, 5 and 6 line models all feature a corrosion resistant long life powder coated steel cabinet and each line is independently sprung and housed in its own cartridge. Easy to operate, the line locking mechanism tensions and securely locks all lines with less than a single turn of the handle.

Features & Benefits

- Long life powder coated steel case
- Lock all lines with a single turn
- Wall mount fixings included
- Individually spring tensioned lines
- Suitable for indoor and outdoor use
- 15 year structural warranty

Custom Made Fold Down Clotheslines

CUSTOM MADE

Daytek. Custom Made Fold Down Clotheslines allow you to make the most of your available space, maximising your drying area.

CUSTOMISE ME Daytek

For superior strength and quality, all Daytek Fold Down and Rotary clotheslines are manufactured from high tensile galvanised steel tube and powder coated. All Daytek Lift & Lock (Mk2) Fold Down and Rotary (Mk2) Clotheslines are supported with a 25 year structural warranty* and are backed with a full range of spare parts. Our Fold Down clotheslines can be mounted on a wall or using the Daytek Ground Mount Kit. * Excludes line which has a 2 year replacement warranty

1 Choose the Installation Site and Plan

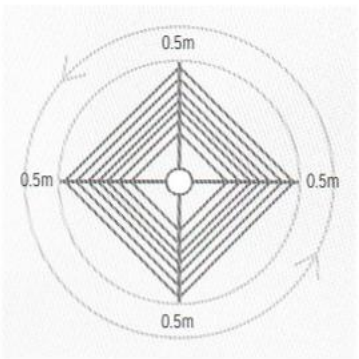
Select the Installation Type – Existing Structure or Ground Mount Kit

Select your installation site; carefully examine the site to ensure the area is free of obstructions and has sufficient clearance to operate the clothesline comfortably.

Rotary Clothesline

All Rotary clotheslines must be mounted into the ground via a Daytek Rotary Ground Socket (Included with clothesline). Minimum recommended clearance at all sides of the clothesline is 0.5m.

Model	M38	M48	M58
Head diameter	3.2m	3.6m	3.9m
Minimum clearance diameter	4.2m	4.6m	4.9m



Fold Down Clothesline

Fold Down clotheslines can be mounted either onto an existing structure such as a wall or fence posts or you can use a Ground Mount Kit.

If you plan to fix your clothesline onto an existing structure check that the structure is sound and able to support your clothesline; on timber walls or fences check the location of studs or posts.

Consider using a **Daytek Ground Mount Kit** for a free standing installation for maximum strength and greater flexibility of site choice.

Daytek Ground Mount Kits come in two configurations; standard for an in ground installation or with a base for installation onto an existing concrete pad.

All fasteners required for the mounting of your Fold Down Clothesline to the Ground Mount Kit are included in the pack.

2 Choose the Style

Select the model to suit your needs – Single, Twin or Rotary

The **Daytek Single Fold Down Clothesline** is the most popular model in the Daytek Fold Down range.

The **Daytek Twin Fold Down Clothesline** has all the features of the Daytek Single Fold Down with the added versatility of two frames that operate independently.

The **Daytek Rotary Clothesline** offers maximum drying space suitable for large family and large backyards.

3 Measure

Use our guide to measure and order your clothesline

Fold Down Clothesline

BOX A - WIDTH
Mounting centre to mounting centre.
(Maximum width 2,980mm)
BOX B - DEPTH
Select an option from the table provided.

1. Width

What is the required width (mounting centre to mounting centre) of your clothesline in millimetres? Write this value in **Box A (The maximum allowable width is 2,980mm).**

Note: ensure your selected space has a minimum 50mm clearance either side of this measurement.

If you do not require a custom width, please choose a standard width from the 3 options to the right and enter value into **Box A.**

Mini	1520mm
Slim/Single	2220mm
Twin	2220mm

A

2. Depth

Select from the tables to the right the clothesline depth most suited to your needs (The corresponding number of hanging lines is shown for your reference). Write the chosen depth in **Box B.**

Note: For any width over 2,480mm, the maximum allowable depth selection is Single 865mm (9 Lines) and Twin 989mm (9 Lines).

For SINGLE FRAME clotheslines select from this table

				Standard Mini/Slim					Standard Single		
Number of lines	3	4	5	6	7	8	9	10	11	12	13
Clothesline depth from wall (mm)	415mm	490mm	565mm	640mm	715mm	790mm	865mm	940mm	1015mm	1090mm	1165mm

For TWIN FRAME clotheslines select from this table

			Standard Twin	
Number of lines	9	10	11	12
Clothesline depth from wall (mm)	989mm	1064mm	1139mm	1214mm

B

3. Final Check

- Double check your measurements.
- Make sure there will be sufficient clearance in both the up and folded positions to operate the clothesline.

Rotary Clothesline

Daytek can customise the height of a Rotary Clothesline to suit your needs.

1. Hanging Arm Height

Determine your required Hanging Arm Height (note the max. and min. heights shown on the diagram to the right). Write value in **Box C.**

Note: The height of the clothesline should be approximately 50mm from the users head.

All Daytek clotheslines come with a ground socket that provides 3 height adjustment options. The measurement entered into Box C will be measured from the mid height setting. This will allow you to still adjust the sitting height of your clothesline 75mm above or below your chosen measurement if required.

2. Final Check

Double check your measurement to ensure it is suitable to your needs.

C

4 Choose the Colour

Select the colour that best matches your home – roof, gutters, window frames, fence

Primrose	Asteroid Pearl	Light Grey	Mercury Silver
White Mist	Timber Grey	Bedrock Grey	Iron Grey
Sand	Obsidian	Black Satin	Coastal Blue
Bark	Anthracite Black	Hawthorn Green	

Daytek COLOUR my day

How It Works

It's as simple as 1,2,3! Follow the steps shown to purchase or order your product. If you need further advice, speak to a team member at the Special Orders Desk in-store.

1. Select The Product You Want

View the extensive range available in this brochure or online. Use the item number shown below to order your product online or in-store.

2. Order Online or at the Special Orders Desk

After you have selected the product you want, take this brochure to the Special Orders Desk or order online at bunnings.com.au

3. Get It Home

We Will Deliver

Delivery to your home or site can be arranged online or in-store when purchasing your products.

Pick-Up In-Store

If you decide to pick-up in-store and need help to get it home, you can:

- borrow a courtesy trailer
- hire a vehicle

Check with your local Bunnings store for availability.
